

The hoisting grip consists of a wire mesh with 1 hoisting eye, closed version

FEATURES / BENEFITS**Antenna Transmission Line Installation**

- Hoisting stockings distribute the force during installation
- It holds the antenna transmission line by means of friction over their complete length
- The closed version (C-Type) is used when top connector is installed after the antenna transmission line is
- The open version (L-Type) is used where the top connector is installed prior to the hoisting
