

Enrico Leonardi Joins the RFS Leadership Team as VP Sales for Europe, Middle East and Africa

The highly experienced telecom sales executive brings deep understanding of customer requirements in the Europe, Middle East and Africa (EMEA) region to the role.

Hanover (Germany), CT, November 25, 2019 - Radio Frequency Systems (RFS), a global designer and manufacturer of total-package solutions for wireless and broadcast infrastructure, today announced that telecom sales and management executive, Enrico Leonardi, has been appointed VP Sales for the Europe, Middle East and Africa (EMEA) region. Enrico reports to RFS President and Chief Executive Officer (CEO), Monika Maurer.

Enrico Leonardi brings more than 20 years of experience in senior sales and management positions at leading technology companies and deep understanding of customer requirements in the EMEA region to his new role. Over the course of his career, Enrico has led business operations in EMEA for Ericsson, Nokia Networks, AGT International and Avanti Communications Group, among others. He has also managed country-wide operations and integration projects involving Nokia and Siemens in the region.

“Enrico has proven he has a tremendous capacity to build and manage EMEA sales teams, open new market channels, and strengthen customer relationships,” says RFS President and CEO, Monika Maurer. “I am very pleased to welcome Enrico to the RFS leadership team and I look forward to working with him to develop strategic partnerships with customers across the region.”

“RFS is showing the world it has the innovative infrastructure solutions and thought leadership telecom providers, broadcasters and industry players need to smoothly evolve their networks to 5G and other next-generation technologies. It’s a very exciting time to join the company and I welcome the opportunity to help more EMEA companies reap the benefits of working with RFS,” says Enrico Leonardi.

Enrico Leonardi holds a Bachelor of Science degree in electrical engineering from La Sapienza University in Rome, Italy, and has studied executive management at Columbia University in New York.

About RFS

Radio Frequency Systems (RFS) is a global designer and manufacturer of cable, antenna and tower systems, plus active and passive RF conditioning modules, providing total-package solutions for wireless infrastructure.

RFS serves OEMs, distributors, system integrators, operators and installers in the broadcast, wireless communications, land-mobile and microwave market sectors. As an ISO compliant organization with manufacturing and customer service facilities that span the globe, RFS offers cutting-edge engineering capabilities, superior field support and innovative product design. RFS is a leader in wireless infrastructure.
