

CR&C to provide support for RFS Microwave customers

06 June 2023, Hannover, Germany - Radio Frequency Systems (RFS), a specialist in the design and manufacture of premium, future-ready cable solutions for customers across the globe, today announced that CR&C will provide ongoing support and maintenance for RFS Microwave solutions.

C.R.&C. is an Italy-based specialist in the design, manufacturing, and distribution of RF, digital and analog systems, electronic boards for control systems, communications, and power supplies. Its team also provides aftersales care and has signed an agreement to provide ongoing support for installed RFS Microwave Solutions worldwide.

Under this agreement, CRC will be able to offer spare parts to maintain and upgrade a wide selection of RFS's installed microwave antennas, especially backfire feeds, OMT, and radomes.

For any maintenance requirements please contact Luigi Stucchi: luigistucchi@crsrl.biz (www.crcsrl.biz).

About RFS

Radio Frequency Systems (RFS) is a global designer and manufacturer of cable, antenna and tower systems, plus active and passive RF conditioning modules, providing total-package solutions for wireless infrastructure.

RFS serves OEMs, distributors, system integrators, operators and installers in the broadcast, wireless communications, land-mobile and microwave market sectors. As an ISO compliant organization with manufacturing and customer service facilities that span the globe, RFS offers cutting-edge engineering capabilities, superior field support and innovative product design. RFS is a leader in wireless infrastructure.
