Hand tool kit for the installation of connectors and grounding kits on CELLFLEX® Cables

The hand tool kit for CELLFLEX® cables contains all devices required for the installation of OMNI FIT™ connectors onto CELLFLEX® cables from SCF14 up to LCF158 using the manual way as described in the installation instruction. By separately acquiring of the required trimming tools, this kit also supports the automated process.

**FEATURES / BENEFITS**

All tools for manual installation of connectors and grounding kits in one box.

For easier installation and in order to get the highest possible quality of installation we recommend going for our Universal Trimming Tools (TRIM-SET\*-\*\*\*\*-\*\*\*\*) in addition.

For easier and safe installation of grounding kits and for the dismantling of cable jacket for the connector installations we recommend using our jacket stripping tools (JSTRIP-\*\*\*-\*) in addition.
