

RFS joins Nokia Global Partner Program

Connecticut, USA – March 14, 2022 -RFS today announced it has signed a channel partner agreement with Nokia.

As a result of this relationship, RFS will market, distribute and service Nokia Digital Automation Cloud (DAC) to customers in North America. Nokia DAC is an end-to-end industrial-grade platform that combines plug-and-play 4G and 5G private wireless connectivity with on-premises edge computing capabilities and ready-to-use applications to make it faster and easier to move to smarter, real time and more automated operations.

Christian Barb, VP Sales North America, RFS commented, "Digital transformation is essential for organizations across every industry and Nokia has developed an ideal solution to help them get there faster. We will take full advantage of our global sales force and expert services team to help as many organizations as possible benefit from the speed and simplicity the Nokia Digital Automation Cloud platform enables, assisting with digital transformation needs today and for many years to come."

Vikas Trehan, VP of North America Channel Sales said: We are pleased to welcome RFS to the Nokia Global Partner Program to help drive new growth and develop new customer relationships. This will allow even more enterprises to leverage industrial-grade private wireless to connect assets at the network edge and automate operations on their journey through Industry 4.0".

About RFS

Radio Frequency Systems (RFS) is a global designer and manufacturer of cable, antenna and tower systems, plus active and passive RF conditioning modules, providing total-package solutions for wireless infrastructure.

RFS serves OEMs, distributors, system integrators, operators and installers in the broadcast, wireless communications, land-mobile and microwave market sectors. As an ISO compliant organization with manufacturing and customer service facilities that span the globe, RFS offers cutting-edge engineering capabilities, superior field support and innovative product design. RFS is a leader in wireless infrastructure.

About Nokia

At Nokia, we create technology that helps the world act together.

As a trusted partner for critical networks, we are committed to innovation and technology leadership across mobile, fixed and cloud networks. We create value with intellectual property and long-term research, led by the award-winning Nokia Bell Labs.

Adhering to the highest standards of integrity and security, we help build the capabilities needed for a more productive, sustainable and inclusive world.
