RFS REACH Statement

Jun. 2022

The European Regulation concerning Evaluation, Authorization and restriction of Chemicals - REACH (EC 1907/2006) entered into force on 1. June 2007.

The RFS Group is as a producer of telecommunication equipment downstream user of chemicals and preparations under the definitions of REACH. RFS does not manufacture or import chemical substances to the EU in quantities above 1 ton per annum and is therefore not obliged to pre-register or register under the REACH regulation. – Art. 7(1).

As per today's status RFS products (and their packaging) do not contain more than indicated % of weight by weight (w/w) of substances which are listed as substance of very high concern (SVHC) published and updated by ECHA on a regular base, please refer to <https://echa.europa.eu/candidate-list-table>. RFS will immediately inform his customers of any change that could impact our products in line with the requirements of REACH – Art. 7(2) & 33.

To secure product safety and delivery on time we have checked the status of pre-registration within our supply chain and will further track on the renewal of safety data sheets for all chemicals purchased by RFS.

This statement supersedes and replaces the provisions of all other previously delivered relating to compliance with the REACH Statement.
