

RoHS Declaration

October 2021

As of July 1st, 2006, Directive 2002/95/EC on the “Restriction of hazardous substances in electronic equipment” (RoHS) restricted the use of certain substances in electrical and electronic equipment (EEE). A recast directive 2011/65/EU subsequently came into force.

RoHS 2.0 / Directive (EU) 2015/863, the Amendment to Annex II, dated March 31, 2015 additionally restricts the use of DEHP, BBP, DBP and DIBP and came into force on July 22, 2019.

The RoHS Directive currently restricts the use of ten substances to the following maximum concentration values tolerated by weight in homogeneous materials:

Restricted Substance	Maximum Threshold Limit
● Lead	1000 ppm (0.1 weight %)
● Mercury	1000 ppm (0.1 weight %)
● Cadmium	100 ppm (0.01 weight %)
● Hexavalent chromium	1000 ppm (0.1 weight %)
● Polybrominated biphenyls (PBB)	1000 ppm (0.1 weight %)
● Polybrominated diphenyl ethers (PBDE)	1000 ppm (0.1 weight %)
● Bis(2-Ethylhexyl) phthalate (DEHP)	1000 ppm (0.1 weight %)
● Benzyl butyl phthalate (BBP)	1000 ppm (0.1 weight %)
● Dibutyl phthalate (DBP)	1000 ppm (0.1 weight %)
● Diisobutyl phthalate (DIBP)	1000 ppm (0.1 weight %)

RFS confirms that from the date of this declaration and to the best of our knowledge, the RFS products placed on the market and delivered to customers in the European Union are compliant with the above listed RoHS Directives.

RFS cannot guarantee that inventory held by distributors or other third parties is RoHS compliant.
