

**CTIE-S-360-8**

Metal Tie for Fire Secured Fixing Point in Combination with TAS-120L

Self-locking Cable Ties speed up installation with a unique self-locking head design that locks into any part of the tie. Plus, the smooth edges of 316 stainless steel promote worker safety in indoor, outdoor and underground environments.

In conjunction with the cable tie for messenger wire TAS-120L an additional metal tie shall used as fire protection installation. The recommended installation spacing is 8 - 10 m (26 - 32 ft).

FEATURES / BENEFITS

Fire protection installation, stainless steel

CTIE-S-360-8 (in combination with TAS-120L)
