

Indoor Omnidirectional MIMO Antenna 698-3800 MHz

The omnidirectional MIMO antenna I-ATO5-43-698/3800M is designed for broadband in-building DAS applications supporting all kind of safety as well as 4G and 5G commercial wireless communication networks. The antenna combines an aesthetical design with superior electrical characteristics notably a PIM optimized design to minimize network interferences. The antenna is constructed from lightweight materials ideal for easy ceiling mounting. The low profile and off-white radome blends easily into most building aesthetics with minimum visual impact. **FEATURES / BENEFITS**

• Wideband omnidirectional MIMO antenna, supporting all wireless services in the frequency bands 698-960/1427-2700MHz/3400-3800MHz

- \cdot Typically used in indoor distribution of 2G / 3G / 4G / 5G wireless services in all standardized frequency bands
- PIM optimized antenna design (-153dBc @2x20W)
- $\boldsymbol{\cdot}$ Aesthetical visual appearance, compact and light weight
- Low return loss, stable performance
- Pigtail with 4.3-10 female connector
- Ceiling mounting
