

## Power Connect cable 5,3 mm<sup>2</sup> for connection of one RRU

**RFS' HYBRIFLEX** ™ cabling solution for Remote Radio Unit (RRU) combines optical fiber and DC power in a single lightweight aluminum corrugated cable, making it the world's most innovative solution for RRU deployments. It was developed to reduce installation complexity and cost at Cellular sites.

**HYBRIFLEX™** cabling solutions allows mobile operators deploying RRU architecture to standardized installation process and eliminates the need for and the cost of cable grounding. The **HYBRIFLEX™** Power Connect cable **PW-S-05S1-J** consists of one unshielded pair DC wires protected by a corrugated Aluminum armor.

## FEATURES / BENEFITS

UV resistant jacket

**Armor Type** 

• Comply with IEC 60228

| • Flexible                                      |              |                            |
