Optical Fiber Cable Distribution Box, ABS, 12-48 Cores, Pigtail is included

RFS' HYBRIFLEX $^{\text{IM}}$ Optical fibre cable distribution box is a wiring line device of user distributions in FTTH system and distrubuted Radio system , it provides protection and management for fiber cable, and be used for terminating, cable branching, cross connection. It is mainly used for user access point in FTTH-ODN network , it can be divided into indoor and outdoor type according to the installation scenario, for example distribution type and optic-split type . Pigtail and Splice protection sleeve are included.

FEATURES / BENEFITS

- Made of high quality engineer plastic material (PC+ABS)
- · Good mechanical strength, Elegant appearance, sturdiness and durability
- Provides interconnection for F/O trunk riser and branch or jumper F/O cable.
- Suitable for indoor or outdoor ,wall-mounted , pole installation
- Built-in stacked splice tray, easy for open, the splice tray can be taken down, easy for installation and maintenance.
- \bullet The box door opening Angle is >180°, easy for handling cables and connections inside box
- Cable pigtails patch cords are running through own path without disturbing each other, cassette type SC adaptor installation, easy maintenance. It is convenient for fixing and maintenance
- Fibre routing reasonable, bending radius of fibers in any place is greater than 30mm
- Water-proof/dust-proof/anti-aging, protection level up to IP65.
