

The HYBRIFLEX preparation tools are developed to make a quick and safe circular cut on HYBRIFLEX corrugated armored cables. This circular cut might be necessary in case of length adjustment. Preparation tools are available for many cable sizes.

**FEATURES / BENEFITS**

- **Quick and easy use** - Cut through jacket and armor by just two turns
- **No chance to damage the inner core** - The blade position is adjusted in a way that makes it impossible to cut into the inner core
- **Long lasting cutting blades**- Even if worn after many operations, they may be easily replaced

**Technical features**

**GENERAL SPECIFICATIONS**

|                                 |  |                                |
|---------------------------------|--|--------------------------------|
| Cable Size                      |  | 1-1/4"                         |
| Type of tool                    |  | Combination Cable Cutting Tool |
| Spare part / Useful Accessories |  | Spare Blades : TRIM-B30        |

**MECHANICAL SPECIFICATIONS**

|                  |         |                                     |
|------------------|---------|-------------------------------------|
| Material         |         | Fiberglass reinforced Polycarbonate |
| Color            |         | Red                                 |
| Weight per piece | kg (lb) | 0.22 (0.48)                         |

**TESTING AND ENVIRONMENTAL**

|                          |         |                         |
|--------------------------|---------|-------------------------|
| Storage Temperature      | °C (°F) | -40 to 85 (-40 to 185 ) |
| Operation Temperature    | °C (°F) | -40 to 85 (-40 to 185 ) |
| Installation Temperature | °C (°F) | -20 to 50 (-4 to 122 )  |
| Compliance               |         | RoHS compliant          |
